Sue went to the grocery store.
She wanted an apple.
Sue saw many apples at the store.
The store had red apples.
There were green and pink apples.
There were even yellow apples.
Sue saw small apples and big apples.
Sue saw so many apples that she did not know which apple to get.
Finally, she got a two-color apple.
It was soft pink and green!
It is called a Pink Lady.
Now Sue likes the Pink Lady best!
